

Romanian Energy Efficiency Forum 2016

National Conference on Sustainable Energy Development

October 13, 2016

InterContinental Hotel • Bucharest, Romania

Join us at the most important event in Romania dedicated to energy efficiency and sustainable energy program development!

The opportunities and challenges of implementing energy efficiency programs as the next step in Romania's energy strategy will be debated in the largest conference dedicated to this sector in Romania, the Energy Efficiency Forum 2016 organized by GovNet Conferences and the Romanian Association for Promoting Energy Efficiency.

Representatives of the Romanian Government, energy regulatory authorities and industry professionals will exchange experience across the entire supply chain of the energy industry, through a perfect discussions and networking platform created to support the development of sustainable energy projects in Romania.
